Copy No. 02

MEMORANDUM FOR: Deputy Director for Science & Technology

SUBJECT : Memorandum of 11 October 1965 Assigning Staff Responsibilities for Support to DCI in the National Reconnaissance Program

1. I have reviewed the subject memorandum and am unable to concur with it as presently worded because I am unclear as to its purpose. If it is intended to establish and spell out the duties of the new position of Director of Reconnaissance, CIA, then the changes I propose would make this clear. If it is intended, as the title suggests, to describe the role of the Directorate of S&T and other elements of the Agency in the reconnaissance field, then these and perhaps some other changes would be necessary to reflect the concurrent and continuing interest and responsibility of this Directorate in reconnaissance matters.

2. Accordingly, I am returning this memorandum to you together with a copy containing my suggested changes, rather than sending it forward with my non-concurrence. I hope that these proposed revisions can be adopted and I can then concur within the context of the first purpose mentioned above. Otherwise, I think we will have to go back to the drawing board.
